Circle – Different Concepts and Myths

- **The circle or circumference was always one of the primary feminine signs, as opposed to the line or diameter representing masculine spirit.**
- **Early matrifocal villages had round hearths, round houses, round fences and round defensive shapes.**
- **The circle was associated with the idea of a protected or consecrated space, the space where all participants are equal.**
- **Worship places like the Hindu Chakra or Arabic Halka were those in which female influence was prevalent. Pagan sacred dances were circular, as are European folk dances to this day.**
- **Prehistoric stone circles, like Stonehenge ----- known as the Giants' Dance ----- attest to the ancient love of circularity.**
- **The concept of equality was still connected with the circle in medieval legends.**
- **The circle invoked by analogy the full face of the moon, the pupil of the All-Seeing Eye, the circle of the visible horizon and a thousand other natural forms.**

Ancient Sweden and 19

In ancient Sweden the dates of the full moon were computed by runic calendar sticks (runstavar) with the full moon marked only at 19 fixed dates within each month.

Full Moon – 19 fixed dates

Bahai's Calendar and 19

19 days x 19 months = 361 ... Super Cycle

The Bahai's calendar is structured such that a year contains **19 months** of **19 days** each as well as a **19 year** cycle and a **361 year**.

6 – Perfect Values of Buddhists

The Number – 6 means 'Perfection or transcendent' Values of the Buddhists.

- 1. The patience.**
- 2. The charity.**
- 3. The energy.**
- 4. The wisdom**
- 5. The contemplation.**
- 6. The virtue**

Chinese Calendar and 19

- Every **19 years**, the intercalary month of Chinese Calendar is inserted after the **8th month** and is called "ren ba yue" (double August). It predicts tragedy and death in popular tradition.
- Number – **19 is the 8th Prime Number**

Circle and Definition of God in Hinduism

'God is a circle whose circumference is nowhere and whose center is everywhere'.

It is a famous cliché cribbed from a Hindu catechism concerning the deity called the One as:

“an unbroken circle with no circumference, for it is no-where and everywhere.”

The idea of the 'Cosmos' as an unbroken circle was repeated in the Gnostic image of the world 'Serpent' forming a circle with its tail in its mouth.

6 and Hindus

Many Hindus believe **God (Ishvar) is One (1)** according to Vedas and has Six - 6 main attributes.

1. **Jnana (Omniscience)**, defined as the power to know about all beings simultaneously
2. **Aishvarya (Sovereignty)**, derived from the word Ishvara, which consists in unchallenged rule over all
3. **Shakti (Energy), or power**, which is the capacity to make the impossible possible
4. **Bala (Strength)**, which is the capacity to support everything by will and without any fatigue
5. **Virya (Vigor)**, or valor which indicates the power to retain immateriality as the Supreme Being in spite of being the material cause of mutable creations
6. **Tejas (Splendor)**, which expresses his self- sufficiency and the capacity to overpower everything by his spiritual effulgence.

(cited from Bhakti Schools of Vedanta, by Swami Tapasyananda)

6 Perfect Virtues in Hinduism

The 6 Perfect Virtues, also known as '**Shat sampat**' in Hinduism are:

1. **Tranquility – Shama**
2. **Training – Dharma**
3. **Withdrawal – Uparati**
4. **Forbearance – Titiksha**
5. **Faith – Shraddha**
6. **Focus – Samadhana.**

Greek Philosophers and 6

The Greek philosophers called the number – 6 as:

- **Harmony**
- **Perfection of parts**
- **Nuptial**
- **Venus**
- **Peace**
- **Friendship**
- **Health**
- **Truth**
- **Wholeness**

- Mr. Richard Amiel McGough, one of the most renowned Christian philosophers of our times wrote in his book, "The Bible Wheel" about the relationship between **19 and 6** and the Grace Manifest Holograph as:

"Chanon – a Hebrew word in Bible is closely related to another fundamental Hebrew word – Chen meaning 'Grace'. Its numerical value yields the index of the Grace Manifest Holograph.

$$\begin{aligned} \text{Gracious} = \text{Chanon (Hebrew)} &= \mathbf{114} \\ &= 19 \times 6 \end{aligned}$$

- The **Number 114** is represented by the **six fold – 6 heart** of the sevenfold Logos Star.

Bible and 114 (Cont...)

Grace is mentioned in the famous verse:

“And the Word was made flesh, and dwelt among us, (and we beheld his glory, the glory as of the only begotten of the Father,) full of grace and truth.”

(John 1.14)

- The ***Gospel of John*** derives its name from the Greek word – ‘loannes’ which arose from the Hebrew word – ‘Yahochanon’, meaning ‘The Lord (YHVH) is Gracious – Chanon in Hebrew.
- The word ‘Chanon’ meaning Gracious is a Chet Keyword used in the acrostic Psalm 145:

“The Lord is gracious, and full of compassion; slow to anger, and of great mercy.”

Bible -19 and 6

- The **19th Hebrew Letter Quph** – is inextricably integrated with the **lifting up (Quph Keyword Qum)** of Christ at **Golgotha**.
- It figures prominently in the value of the phrase **The Body of Jesus** which is the Greek fulfillment of the prophecy given in Zechariah 12.10.
- Its complex set of associated meanings integrates with the structure of the Inner Wheel of Revelation, where we find the distribution of the word "flesh" **maximized on Spoke 19**

Bible and Numbers

“The Hebrew Bible often speaks the language of numbers and measurements.”

(Feldman 1965)

Bible is one of the most famous scriptures and accepted as a Divine Book. Bible is considered as the Divine Seal and capstone of God’s word by the Christians of the world.

600 and Creation of Cosmos

The Number – Six hundred (600) is a triangular number with Index – 3 and relates with the Creation of Man and Cosmos – according to Bible.

Cosmos = Shaysh (Hebrew) = 600

$$= 6 + 0 + 0 = 6$$

666 – Number of Beast

- 666 is known as the '**Number of the Beast**' in the Book of Revelation. In Eastern Orthodox Church, 666 is considered to be very symbolic. 666 in Greek numerals stands for Christ, man – because the man was created the 6th day of Genesis and the serpent - 6 came between them.

666 --- Christ (6) -- Serpent (6)...Man (6)

- 666 is the sum of the squares of the first seven – 7 prime numbers, i.e. 2, 3, 5, 7, 11, 13 and 17.
- **The sum of the squares of the first seven prime numbers**

$$2^2 + 3^2 + 5^2 + 7^2 + 11^2 + 13^2 + 17^2 = 666.$$

The fear of the number 666 is called
'Hexakosioihexekontahehexaphobia'

Symbolic Way to See Pi

- The 16th Letter of Greek Alphabets

The letter 'Pi' is the 16th letter of Greek alphabets. Now we know that the all the mathematical values of Pi so far calculated and computed start with Number – Three – 3. So if we put the place of 'pi' in Greek Alphabets which is 16th after 3, we can get the value of Ali pi.

Pi – 16th letter of Greek Alphabets

Pi – starts with Number – Three – 3 always

Pi = 3.place of pi in Greek alphabet = 3.16...

Exact Value of Ali pi in first 3 numbers.

- **Ali pi = 3.16..... 3.position of Greek letter pi which is 16th in Greek alphabets.**

The word – “Pi” and English Alphabets

PI

- The letter 'P' is the **16th** letter or Alphabet of English language.
- The letter 'I' is the **9th** letter or Alphabet of English language.
- If we write 'Pi' mathematically in the sequence of English Alphabets, we may write as:

$$Pi = P + I = 16 + 9$$

$$16 + 9 = 25 = 19 + 6$$

16 is the Number in Ali Pi after 3 as 3.16.....

- **19 + 6 = 25 is the sum of 16 + 9 = P + I = 25, where 19 is the 'Perfect Circumference' and 6 is the 'Perfect Diameter' of a Perfect Circle or a Perfect Sphere.**

English Letter Numeric Values – Chaldean Method

- The letter 'P' has a numeric value of 16.

$$P = 16 \dots\dots\dots 1 + 6 = 7$$

- The letter 'I' has a numeric value of 9 in English Letter Numeric values.

A-I	J-R	S-Z
A = 1	J = 1	S = 1
B = 2	K = 2	T = 2
C = 3	L = 3	U = 3

Judaism – Torah and Numbers

Rabbi Moshe ben Nachman writes about the encoding of Torah as:

“Everything that was transmitted to Moses our teacher through the **forty-nine gates of understanding** was written in the Torah explicitly or by implication in words, in the numerical value of the letters or in the form of the letters, that is, whether written normally or with some change in form, such as bent or crooked letters, and other deviations.....”

Judaism and 19

- The following quotation is also taken from '**Studies in Jewish Mysticism**', (Association for Jewish Studies, Cambridge, Mass., Joseph Dan and Frank Talmage, eds., Page 88, 1982). The quotation refers to the work of **Rabbi Judah the Pious (12th Century AD)**):
 - **"The people (Jews) in France made it a custom to add (in the morning prayer) the words: " Ashrei temimei derekh [blessed are those who walk the righteous way]," and our Rabbi, the Pious, of blessed memory, wrote that they were completely and utterly wrong. It is all gross falsehood, because there are **only nineteen times** that the Holy Name is mentioned [in that portion of the morning prayer]..... and similarly you find the word ' Elohim **19 times** in the pericope of Ve-'elleh shemotSimilarly, you find that Israel were called "sons" **19 times**, and there are many other examples. All these **sets of 19** are intricately intertwined, and they contain many secrets and esoteric meanings, which are contained in more than eight large volumes.**

Judaism and 19 (Cont...)

- Therefore, anyone who has the fear of God in him will not listen to the words of the Frenchmen who add the verse, '**Ashrei temimei derekh**', and blessed are the righteous who walk in the paths of God's Torah, for according to their additions the Holy Name is mentioned twenty times.... and this is a great mistake.
- Furthermore, in this section there are **152 words (19 x 8 =152)** but if you add, 'Ashrei temimei derekh', there would be 152 words. This is nonsense, for it is a great and hidden secret why there should be **152 words**..... but it cannot be explained in a short treatise.....In order to understand this religious phenomenon, we have to take the basic contention of this treatise exactly as it is stated: every addition or omission of a word, or even of a single letter, from the sacred text of the prayers destroys the religious meaning of the prayer as a whole and is to be regarded as a grave sin, a sin which could result in external exile for those who commit it.....”

Jews Calendar and Cycle of 19

- The number of years in each cycle of intercalated Hebrew calendar in which 7 of the 19 years are leap years.
- In Hebrew or Jewish calendar, Leap years follow a 19 year schedule in which years 3, 6, 8, 11, 14, 17 and 19 are leap years. The Hebrew year 5758 (which starts in the Gregorian year 1997) is the first year of a cycle.
- 19 years is the same as 235 lunations in Hebrew calendar calculations. The Hebrew calendar is computed by lunations

216 and Judaism

$$6 \times 6 \times 6 = 216$$

216 = Area = Volume of a Cube with all sides = 6

The Torah - Jewish Scripture

The Star of David and a Menorah are in the background, which are the two important symbols of Judaism.

216 and Judaism (Continued..)

- The **216-letter name of God** is widely known and called the '**Shemhamphorasch**' or the Divided Name. It came from **Exodus – 14:19-21**.
- Each of these **3 verses** is composed of **72 letters** in the original Hebrew. If one writes the 3 verses one above the other, the first from right to left, the second from left to right, and the third from right to left, one gets 72 columns of 3 – letter names of God. The 72 names are divided into 4 columns of 18 names each. Each of the four columns represent one of the 4 letters of the '**Tetragrammaton**'.

$$72 \times 3 = 216 \dots\dots\dots \text{and } 72 = 18 \times 4$$

$$24 \times 6 = 216$$

$$6 \times 6 \times 6 = 216$$

- The actual name of God, according to Jewish traditions, is the '**Tetragrammaton**' or (**YHWH or YHVH**) **comprised of 4 letters**. This is the name that was intoned in the temple during Yom Kippur.

Spiritual Circumference and Diameter associated with the names of God

"Kabbala was a species of symbolic writing among the initiated, setting forth the secret teachings of the Bible; and the key of Kabbala is thought to be the **geometrical relation of the area of the circle inscribed in the square, or of the cube to the sphere, giving rise to the relation of diameter to circumference of a circle, with the numerical value of this relation expressed in integrals. The relation of diameter to circumference being a supreme one connected with the God-names:**

Elo[-]him and Jehovah – which terms are expressions numerically of these relations, respectively – the first being of **circumference**, the latter of **diameter**, especially all other subordinates under it.

(From *The source of Measures*, by J. Ralston Skinner (1894), Wizard's Bookshelf (1972): *Quadrature of the Circle*, by John A. Parker, as presented in J. Ralston Skinner, *Source of Measures*, p.12.)

Bible and Number – 6

It is written in **Exodus 20.19f** as:

“**Six** days shalt thou labor, and do all thy work....For in **Six** days **the LORD** made heaven and earth, the sea, and all that in them is, and rested the **seventh day**: wherefore the LORD blessed the Sabbath day, and hallowed it.”

19 and Bible Wheel

Richard Amiel McGough wrote a book, **"The Bible Wheel"** on the numerical structure of Bible. He is considered as one of the most respected and reputed Christian scholar and philosopher of our times.

He described the importance of Number -19 in Bible as:

"The **number – 19** is considered as a **'Physical Manifestation'** in Bible. The two important verses in relation with **19** are:

"And Adam called his wife's name Eve; because she was the mother of all living."

(Genesis 3.20)

Major Identities in Bible based on Number-19

The primary identities based on the Number 19

1. Hebrew Letter – Quph = 19 - 'Quph' is the Nineteenth letter in Hebrew.
2. The Earth (Mark 13.31) = 19 = Hay Gai(Hebrew)
3. Behold (Jn 1.29) = 19 = Idei(Hebrew)
4. Praise = 19
5. Trust = 19 = Betach(Hebrew)

Major Identities in Bible based on Number-19

6. The Heart(Ord.) = 19 = HeLav(Hebrew)

7. Flame(Ord.) = 19 = Lahev(Hebrew)

37 and Hexagon/Star pair in Creation Holograph in Bible

The Number 37 is the Hexagon in the Hexagon/Star pair 19/37 which appears in the heart of Genesis 1.1 - the Creation Holograph:

The Number 37 is the basis of the *Grace Manifest Holograph*. It is related to the ideas of Physical Manifestation and the Flesh.

- **The verse is called the Grace Manifest Holograph for a number of inter-related reasons. First of all, it is the theme of the plain text which speaks of the manifestation of the Word in the flesh, full of grace and truth**

19 is the Key Spiritual and Divine Mathematical number in all the Abrahamic religions

Hrovista of Gondersheim says:

“This discussion would be unprofitable if it did not lead us to appreciate the wisdom of the our Creator, and the wondrous knowledge of the Author of the world, Who in the beginning created the world out of nothing and set everything in number, measure and weight, and then in time and age of man formulated a science which reveals fresh wonders the more we study it.”

19 – Spiritual Mathematical Number and God's Signature on Universe

- **Number (19)** is the numerical or gematrical value of the word '**ONE**' in all the scriptural languages, Aramaic, Hebrew and Arabic. The **number 19** therefore proclaims the First commandment in all the scriptures: that there is only **ONE GOD**.

$$19 = 1 + 9 = 10 = 1 + 0 = 1$$

- **Deuteronomy 6:4-5**, " Hear O Israel the Lord our God is **one Lord** and thou shalt love the Lord thy God with all thine heart, and with all thy soul, and with all thy might."
- **Mark 12:29**, " And Jesus answered him, The first of all the commandments is, Hear, O Israel; **The Lord our God is one Lord!**"
- **Quran 2:163**, " And **your God is one God**: there is no god but He, most Gracious, most Merciful."

Canadian council on the study of Religion and authenticity of Quran as a Divine scripture

19 as the God's signature on the Universe

- Dr. Rashad Khalifa, a bio-chemist from the USA decoded the **significance of 19** in Quran. The momentous discovery that **19** is the **Quran's common denominator** became a reality in January 1974.
- **In 1983**, Canadian Council on the Study of Religion reported in its **Quarterly Review of April 1983** that the code of Khalifa discovered is **"an authenticating proof of the divine origin of the Quran."**

Rashad Khalifa writes:

"The discovery of mathematically coded scripture assures us that the verses, words, letters and all parameters of the original scripture were written down in accordance with an intricate pattern that is clearly superhuman. Like an ancient time capsule, the code remained hidden until our knowledge grew sophisticated enough to decode its intricacies. This code was deciphered by computers.

Quran and 19 – A mathematically encoded literature

The Quran, which was revealed in **A.D. 610-632**, is the only scripture that is known to still exist in its original language and form. It is also the only book known to be **mathematically coded** throughout. All the parameters of the Quran - the numbers and sequence of chapters, the number of verses, the number assigned to each verse, the number of words, the number of certain specified letters, the number of words from the same root, the number and variety of divine names, the absence of one or more letters from a word, verse or chapter, the unique and often strange spellings of certain crucial words and many other elements are all authenticated by its

- The '**Abjad Numerals**' are a decimal numeral system which was used in the Arabic-speaking world prior to the use of the Hindu-Arabic numerals from the 8th century, and in parallel with the latter until Modern times. In the Abjad system, the **28 letters** of the Arabic alphabet are assigned numerical values, based on the '**Abjadi order**'.
- For example, the first letter of the Arabic alphabet, '**Alif**' is used to represent 1, the second letter, '**Ba**' is used to represent 2, etc. Individual letters also represented 10's and 100's, for instance, the Arabic letters, '**Ya**' for 10 , '**Kaf**' for 20 and '**Qaf**' for 100, etc.
- The word '**abjad**' itself derives from the beginning of the order of the letters in the proto-Canaanite alphabet, Phoenician, Aramaic alphabet and Hebrew.

- 2. Qaf – the numeric or gematric value of 'Qaf' = 100**
- 3. Ra – the numeric or gematric value of 'Ra' = 200**

The total numeric value of Arabic word – Saqar – 'Seen + Qaf + Ra'

$$\text{Saqar} = 60 + 100 + 200 = 360$$

360 are the total and perfect degrees in a Perfect Circle or Sphere.

After the introduction of 'Saqar', the Holy Quran mentions in the same Sura – 74, Verse – 30,

"Over (the Saqar), it is nineteen (19)."

www.ali-pi.com

Meaning – Over (360), it is nineteen (19).

Holy Quran – 360 and 19

- **The Arabic word – 'Saqr' – 360 is mentioned in Verse – 27 of Chapter – 74 of the Holy Quran.**

Now we will see the relationship between 360 and 27

$$1/360 = 0.0027\text{.....}$$

- **The number – nineteen (19) is mentioned in Verse – 30 of the same Sura – 74 of the Holy Quran.**

Now we will see the relationship between 19 and 30.

Arabic Word – ‘Wahid’ and 19

- The 'Abjad' numerical value of Arabic word 'Al-Wahid' meaning One and Only Allah (God) is **19**. This word is also used with various other words in the Quran – 7 times such as 'one door', 'one variety of food'. But it is only used **19 times together with the name of 'Allah' (God)**.
- The word **“Wahid”** is written with the letters `wau + alif + he + de` the total mathematical values of these letters are **(6 + 1 + 8 + 4) 19** as we have mentioned above.

$$\begin{array}{r} \text{Wav} + \text{Alif} + \text{Ha} + \text{Da} = \text{total} \\ 6 + 1 + 8 + 4 = 19 \end{array}$$

- The word **“Wahid”** whose mathematical value is **19**, is used **19 times** for God in the Quran. The list of these verses is given below in the table.

Arabic Word – 'Wahid' and 19 (Cont..)

Sr #	1	2	3	4	5	6	7	8	9	10

Quranic Initials - 'Alif', 'Lam' and 'Mim' and 19

- The Arabic letters 'Alif', 'Lam' and 'Mim' are the most frequently used letters in Arabic. They appear together at the beginning of **Six (6) suras** (chapters), for example in Suras **2, 3, 29, 30, 31, and 32**. The number of times these three (3) letters appear in each of these **Six (6) suras** is a multiple of **19**.
- In order to understand , let us see the following illustration:

Sura (chapter) Number

Alif, Lam, Mim

1. Sura - 2

$$9899 = 19 \times 521$$

2. Sura - 3

$$5662 = 19 \times 298$$

3. Sura - 29

$$1672 = 19 \times 88$$

4. Sura - 30

$$1254 = 19 \times 66$$

5. Sura - 31

$$817 = 19 \times 43$$

6. Sura - 32

$$570 = 19 \times 30$$

Quranic Initials - 'Alif', 'Lam' and 'Mim' and 19

- The total number of times, all these three (3) Arabic letters appear in the above **Six (6)** suras (chapters) is **19,874** which is also the multiple of **19** as shown below.

Total (Alif, Lam, Mim) in above = 19, 874

Six (6) suras = 19 x 1046

19874 = 19 x 1046

Quranic Initials and 19

- The number of verses (sentences) between the first Quranic initial letters (Alif, Lam, Mim- Chapter 2- Al-Baqara) and the final initial letters (Nun- Chapter - 68 -Al-Qalam) is 5263

$$5263 = 19 \times 277$$

- The Arabic letters 'Ya' and 'Sin' appears at the beginning of sura (chapter) 'Ya Sin'. The letter 'Sin' appears 48 times in sura 'Ya Sin' and the letter 'Ya' appears 237 times. The total of these letters is 285 which is a **multiple of 19**.

$$285 = 19 \times 15$$

- The sura (chapter) from the beginning to possess **19 verses** (sentences) is sura '**Al- Infitar**'.

19 Verses

Sura "Mary" and 19

- The sura "Mary" is the 19th Sura and is introduced with the initial letters "Qaf, He, Ya, Ayn, Sad". This sura, whose sura number is important, has the longest form of the initial letters in one verse.
- These 5 letters are used 798 (19×42) times throughout the sura Mary.

The total of the initial letters throughout the sura Mary

Qaf	He	Ya	Ayn	Sad	Total
137	175	343	117	26	798 (19×42)

Additionally, in the Sura 19 if we put the mathematical value of "Qaf, He, Ya, Ayn, Sad" next to each other we get

$$20 \ 5 \ 10 \ 70 \ 90 = 19 \times 10795110$$

Quranic Suras without Initials and 19

There are 38 suras (chapters) - $19 \times 2 = 38$
without Quranic initial letters (like Alif,
Lam, Mim, Nun, Qaf, etc) between the
first sura which has initial letters and
the last to have them.

$$38 = 19 \times 2$$

Sura 96 and 19

- Sura 96 consists of 304 Arabic letters and 304 equals **19 x 16.**

304 Arabic words = 19 x 16

Sura (chapter) 96, first in the chronological sequence, consists of 19 verses

- The Arabic word '**Rehman**' meaning All-Merciful appears **57 times** in the Quran.

57 = 19 x 3

Sura 96 – 19 suras atop from the end of Quran

- **The first chronological Sura is placed atop the last - 19 suras.**
- **When we start to count back from the end of the Quran **up to 19**, we come across with the sura Alaq (The Hanging).**
- **The number of the verses of the sura Alaq(The Hanging) is 19.**

Meton Cycle and 19

- It takes the earth and the moon **19 years** to meet at the same starting point. This **cycle of 19 years is called the Meton cycle.**
- The lunar calendar re-arranged in every **19 years**, ends up with **7 leap years** (355 days) and **12 full years** (354 days) during this period.
- It is also another surprising characteristic of the miracles that the **singular year 'sinet' is used 7 times, whereas the plural year 'sinin' is used 12 times in the Quran.**
- All the derivatives of the **word "year" are used 19** times, an indication of the Meton cycle.

Quran and Meton cycle – 19 years

- The derivatives of the word 'year' – 'sinet or sinin' are mentioned **19 times** in the Quran, the Last Holy Book of Islam.
- And all the derivatives of the word 'year' are used **19 times**, an indication of the Meton cycle. The earth lines up with the sun and the moon **every 19 years**. In the Quran, the words, 'sun' and 'moon' are often used in the same verses, **exactly 19 times**, the same number that makes a 'Meton cycle'.

Sun, Moon, Earth and 19

It is also interesting to note that on the **19th time in Quran**, these two words are used together as the sun, moon and earth are co-joined **every 19 years**, we see the following verse:

“AND THE SUN AND THE MOON ARE CONJOINED”

Quran (Chapter -75 - The Resurrection, 9)

Earth's Orbit and Circle

“The Earth’s orbit is the measure of all things; circumscribe around it a dodecahedron and the circle containing this will be Mars; circumscribe around Mars a tetrahedron, and a circle containing this will be Jupiter; circumscribe around Jupiter a cube, and the circle containing this will be Saturn. Now inscribe within the Earth an icosahedron, and the circle contained in it will be Venus; inscribe within Venus an octahedron, and the circle contained in it will be Mercury. You now have the reason for the number of planets.”

Year and 19

- The derivatives of the word "year"-- 'sinet, sinin' are mentioned **19 times** in the Quran. The solar and lunar calendars need correction because of the leap year.
- When the world revolves around the sun 365 times, the moon revolves around the earth and itself 12 times.
- This constitutes a year. But when the earth completes its revolution and arrives at the starting point, the moon is behind the schedule.

Quranic Initials

Alif, Lam and Ra and 19

- The Quranic initial Arabic letters 'Alif', 'Lam' and 'Ra' appear in suras (chapters) - 10, 11, 12, 14 and 15 - total of 5 chapters. The total number of times these letters appear in these 5 suras (chapters) is as follows:

Sura (chapter) Number	Alif, Lam, Ra
1. Sura - 10	2489 = 19 x 131
2. Sura - 11	2489 = 19 x 131
3. Sura - 12	2375 = 19 x 125
4. Sura - 14	1197 = 19 x 63
5. Sura - 15	912 = 19 x 48

- The total number of times, all these three (3) Arabic letters, 'Alif', 'Lam' and 'Ra' appear in the above Five (5) suras (chapters) is 9462 which is the **multiple of 19** as shown below
- Total (Alif, Lam, Ra) in above Five (5) suras = 9462 = **19 x 498**

Numeric Values of Names of GOD and 19

The numerical value of the words "God", "Al-Gracious", "Al-Merciful" which form the names of God in Bismillah is a **multiple of 19**.

The numerical Value of GOD's names which from BISMILLAH

The Quran mentions 30 different numbers

1	7	19	70	1,000
2	8	20	80	2,000
3	9	30	99	3,000
4	10	40	100	5,000
5	11	50	200	50,000
6	12	60	300	100,000

The total of these numbers (again without taking repetitions into account) is **162,146**.

This is

$$\begin{aligned} 19 \times 8534 &= 1 + 2 + 3 + 4 + 5 + 6 + 7 + 8 + 9 + 10 + 11 + 12 + 19 + 20 + \\ &\quad 30 + 40 + 50 + 60 + 70 + 80 + 99 + 100 + 200 + 300 + 1,000 \\ &\quad + 2,000 + 3,000 + 5,000 + 50,000 + 100,000 \\ &= 162,146 \quad (19 \times 8,534) \end{aligned}$$

$$162146 = 19 \times 8534$$

Number -30 is the 19th composite

- **Composite number** is a number of whose factors can be separated. The **first 19 composite** numbers are:

4, 6, 8, 9, 10, 12, 14, 15, 16, 18, 20, 21, 22, 24, 25, 26, 27, 28, **30**,.....

- So **Number – 30** is the **19th composite number** in mathematics
- **Quran has 30 paras.**

“Over it is Nineteen” (74:30)

- **Number – 19** is mentioned in the **30th Verse** of Sura – 74.

8 Fractions in Quran and 19

- In addition to the thirty numbers in Quran, it also refers to **eight** fractions:

$1/10, 1/8, 1/6, 1/5, 1/4, 1/3, 1/2$ and $2/3$

- Thus Quran contains a **total of 30 numbers + 8 fractional numbers**

38 numbers = 19 x 2

- **19 is the 8th Prime Number**

1/10th – 38th Number in Quran

- The Holy Quran has used **38** different numbers. **30** Numbers are **whole numbers** and **8** are **fractions**. **1/10th** is the least number used in Quran as a fraction.

1/10 = 38th Number used in Quran

= 19 x 2

= 38

Magic Squares and Mathematics

“There is no science that teaches the harmonies of nature more clearly than mathematics, and the magic squares are like a mirror which reflects the symmetry of the divine norm immanent in all things, in the immeasurable immensity of the cosmos and in the construction of the atom not less than in the mysterious depths of the human mind”

Paul Carus, in W.S. Andrews's Magic Squares and Cubes

Everything = 361 = 19 x 19

- **361 – 19 x 19** and the Arabic Word - كُلُّ شَيْءٍ -
Every Thing
- The Almighty God has used this Arabic word - كُلُّ شَيْءٍ -
meaning 'Every thing' – **114 times in The Quran.**
- كُلُّ شَيْءٍ = **Every thing = 114 times in Quran**
- The Gematrical value of the Arabic words "EVERYTHING" is
361 which is 19 X 19.
- كُلُّ شَيْءٍ = **Every Thing = 361 = 19 x 19**

Everything **كُلُّ شَيْءٍ** = 361

$$361 = 19 \times 19$$

- Some of the illustrations are as follows:

- **"We counted EVERYTHING **كُلُّ شَيْءٍ** in a record."**

Quran – (Chapter – 78, Verse – 29)

- **"This is to ascertain that they have delivered their Lord's messages. He is fully aware of what they have. He has counted the numbers of EVERYTHING **كُلُّ شَيْءٍ** (all things.)"**

Quran – (Chapter – 72, Verse – 28)

- **"He is the One who created for you EVERYTHING **كُلُّ شَيْءٍ** on earth, then turned to the sky and perfected seven universes therein, and He is fully aware of all things.**

Quran – (Chapter – 2, Verse – 29)

Prophet Muhammad (PBUH) said:
“Every thing **كُلُّ شَيْءٍ** returns to its origin.”

As we know now that the numerical or
gematrical value of ‘Every thing’ **كُلُّ شَيْءٍ** is
361.

If we analyze the sacred encoded saying of Prophet
Muhammad (PBUH), we see that in circles every thing
started from **0 degrees** when returns to its origin, it has
to take **360 degrees**. In other words, when we start our
journey from 0 degrees in a circle, we have to take **360
degrees to return back at 0 degrees at our origin.**

Every thing = 361 = 19 x 19
Returns to its origin – 0 degrees to 360
degrees = 360 degrees

Prophet Muhammad (PBUH) said:
“Every thing **كُلُّ شَيْءٍ** returns to its origin.”

- Now we write the saying of Prophet Muhammad (PBUH) **mathematically**, we see:

$$\mathbf{361 \text{ (Everything)} \times 360 \text{ (return to its origin)}} \\ \mathbf{= 360 + (360 \times 360)}$$

- If we write the same mysterious equation in **19 and 6**, we see:

$$\mathbf{(19 \times 19) \times (6 \times 6 \times 10) = (1 \times 360) + (360 \times 360)} \\ \mathbf{[(19 \times 6) \times (19 \times 6)] \times 10 = (1 \times 360) + (360 \times 360)}$$

- It is the same equation which I have introduced before as a mathematical proof of formation of new circles.

Prophet Muhammad (PBUH) said:
“Every thing **كُلُّ شَيْءٍ** returns to its origin.”

- When **361 (Every thing in our Universe)** is multiplied by **Highest degrees - 360**Every thing would return back to its origin with the **birth of a new thing** similar to the original one.
- So when **361 is multiplied by 360** or when we take 360 rotations around the circle, a new similar new circle is born and the original circle returns back to its origin after taking 360 rotations.
- **361 Cycles x 360 rotations = (1 rotation x 360 degrees) + (360 rotations x 360 degrees)**
- So this mathematical proof is self evident and even confirmed by all angles and directions.

God and The Highest Degrees - 360

One of the verses of the Quran, points out that God is the possessor of highest degrees. The verse is:

“Possessor of the highest degrees, and Ruler of the whole dominion. He sends inspiration, bearing His commands, to whomever He chooses from among His Servants to warn about the Day of Gathering.”

(Quran, Sura 40 verse 15)

“Refii al-daragaat” is translated as “the possessor of the highest degrees”. The word **“refii”** expresses highness and the word **“al-daragaat”** expresses the degrees. The mathematical value of **“refii”**, which states the **highest degree, is 360**. And this number is the equivalent of the highest degrees in the universe and mathematics. The mathematical values are as follows:

$Re = 200$
$Fe = 80$
$Ye = 10$
$Ayz = 70$
<hr/>
$Sum = 360$

Allah and the Highest Degrees - 360°

The word	The mathematical value of the word
Refii	360
The highest degrees in the universe and mathematics	360

- Also only **once in the Quran** did God Almighty choose to call Himself, **"Possessor of the Highest degrees"**.
- Is it then a coincident that the numerical or gematrical value of the word **"Refii" in Arabic is 360**. This means **"God is the possessor of the highest degrees, the 360° degrees."** No higher degree than this is possible in mathematics. **And only Perfect Circle possess 360° degrees**

One and Only Almighty God's Quranic names – Wahid - 19 and Refii - 360

The 'Abjad' numerical value of Arabic word 'Al-Wahid' meaning One and Only Allah (God) is **19**. It is only used **19 times together with the name of 'Allah' (God)**.

The word "Wahid" is written with the letters 'wau + alif + he + de' the total mathematical values of these letters are $(6 + 1 + 8 + 4)$ **19** as we have mentioned above.

$$\begin{array}{r} \text{Wav} + \text{Alif} + \text{Ha} + \text{Da} = \text{total} \\ 6 + 1 + 8 + 4 = 19 \end{array}$$

One and Only Almighty God's Quranic names – Wahid - 19 and Refii 360(cont..)

- God's another Quranic name is '**Refii**', numerically means **360**.

God is 19 and 360 at the same time

- **19** is the representation of **360** degrees and
- **360** degrees is the representation of **19**.

- Now one can understand the names that God (Allah) gave Himself in these verses:

"He (God) is the Alpha and the Omega. He is the Outermost, and the Innermost. He is fully aware of all things."

(Chapter – 57, Verse – 3)

- He is surrounding everything i.e. '**Moheett**' in Arabic. He possesses the Highest degrees i.e. '**Refii Al-Daragat**'.

- **Glorified, the One God, there is no god besides Him.**

One and Only Infinite Almighty Allah and Infinite Circle of 360° Degrees

One and Only Almighty Allah is the Possessor of highest degrees i.e. 360 degrees. So if infinite Allah possesses an Infinite Circle of 360° degrees, then:

What is the Infinite circumference and infinite diameter of Infinite Circle of One and Only Infinite Almighty Allah?

- **Infinite Circumference of Infinite Circle of One and Only Infinite Almighty Allah is a multiple of '19'.**

Infinite Circumference of infinite Circle = $19 \times \infty = 19\infty$

- **Infinite Diameter of Infinite Circle of One and Only Infinite Almighty Allah is a multiple of '6'.**

Infinite Diameter of infinite Circle = $6 \times \infty = 6\infty$

Perfect Infinite π of Infinite Circle of 360°

Infinite π of Infinite Circle = **19/6 x ∞**

(19/6) ∞

Perfect Infinite Sphere of 360° and One and Only Infinite Almighty Allah

If One and Only Infinite Almighty Allah possesses a Perfect Infinite Sphere of 360°, then its infinite area and infinite volume would be:

Infinite Area of Infinite Sphere of Allah = $19 \times 6 \times \infty$

114∞

Infinite Volume of Infinite Sphere of Allah = $19 \times 6 \times \infty$

Famous 5 Personalities of Islam and 19

The **Famous Five – 5 Personalities of Islam** mentioned above have a **total of 19 Arabic letters** in their names.

1. **Muhammad** – ‘Mim, Hey, Mim, Dal’..... **4** Arabic letters.
2. **Ali** – ‘Aen, Lam, Ye’..... **3** Arabic letters.
3. **Fatima** – ‘Fa, Alif, Toa, Mim, Hey’.....**5** Arabic letters.
4. **Hassan** – ‘Ha, Seen, Nun’.....**3** Arabic letters
5. **Hussain** – ‘Ha, Seen, Ye, Nun’.....**4** Arabic letters.

4 + 3 + 5 + 3 + 4Arabic letters = 19 Arabic letters of Famous Five Personalities of Islam.

- The name Jami'u appears **twice in Quran** in chapter - 3, verse - 9 and in chapter - 4, verse - 140.
- **114** represent the name of Allah (God) - the Collector or Gatherer meaning collector of all in the universe.

Perfect Mathematical Pair – Number – 6 and Number -19

“And all things We have created by pairs, so that you can learn from them.”

Quran – (Chapter – 51, Verse – 49)

The important thing to note in this verse is that:

- **The root number of Chapter – 51 is $5 + 1 = 6$**
- **The root number of Verse – 49 = **13****
- If we add the root number of both the Chapter (sura) and Verse number, we would get:

$$6 + 13 = 19$$

- **19**.....Perfect Circumference of a Perfect Sphere or Perfect Circle
- **19 – 6 = 13**.....Perfect Mysterious Number of Universe

Quran – The Holy Book of Islam and 57

“By the even and the odd”

Quran (Chapter- 89.The Dawn, Verse- 3)

When we add sura number and the verses in the corresponding sura, we would see that **57 suras are even numbers** and **57 suras are odd numbers**.

57 Even Suras = 19 x 3

57 Odd Suras = 19 x 3

“This is to ascertain that they have delivered their Lord's messages. He is fully aware of what they have. **He has counted the numbers of all things.**”

Quran – (sura – 72, Verse – 28)

First Half of the Quran = Second Half of the Quran

- If we divide the Quran into two parts, the first part ends at the **57th sura**, which is the sura Iron (Hadid). If we add the sura numbers of the first **57 suras**, it gives 1653. If we multiply the sura number of the **sura Iron (57)** and the number of the verses in Iron sura (29), we have:

$$57 \times 29 = 1653 = 19 \times 87$$

- Thus, when we examine the Quran by dividing it into two parts, the sura Iron implies that we are going to have interesting mathematical data.

First Half of the Quran = Second Half of the Quran (Cont..)

The total of the numbers of suras in the first half of the Quran (1+2+3+.....+55+56+57)	1653 = 19 x 87
Multiplication result of the last sura's number (57) in the first half of the Quran by the number (29) of verses in this sura	1653 = 19 x 87

There are **29 odd numbered and 28 even numbered suras in the first part of the Quran**. There are **28 odd numbered and 29 even numbered suras in the second part of the Quran**. This is because of a mathematical property, because all numbers following one another shows this characteristic. However, it is interesting that while there are 29 "heterogeneous" and 28 "homogeneous" suras in the first part of the Quran, there are 28 "heterogeneous" and 29 "homogeneous" suras in the second part. This conclusion is the result of mathematical characteristics. This is one of the endless miracles of the Quran (Please remember the table about homogeneous and heterogeneous suras).

Odd and Even Suras and Quran

“Say, “If all the humans and the jinns came together in order to produce a The Quran like this, they would surely fail, no matter how much assistance they lent one another.”

Quran – Chapter - 17, The Children of Israel, Verse - 88.

- **The examination of the sura numbers and the number of the verses in the Quran as “odd” and “even” is enough to prove that the row of suras and the number of verses in the Quran are arranged heavenly and the mathematical system protects this structure.**

Odd and Even Suras and Quran (Cont..)

Encrypted Communication – Even and Odd Arrangement

- Here we see one of the most surprising demonstrations of mathematical relationships between chapter and total verse numbers. It is the most modern method of an error check bit in computer data transmission.
- **Thomas H. Athey and Robert W. Zmud** write in their book 'Introduction to Computers and Information Systems (Illinois: Scott, Foresmann and Company, 1986, pp. 238-39):

"To send data in a telecommunications network, start and stop information, origin and destination, information and error check bits must be added to the encoded data to form a data packet. The **error check bit** is used to make sure the data received were not garbled during transmission. In asynchronous transmission, the commonly used error check method is a parity bit. A parity bit is an extra bit that makes the sum of bits representing a character either even or odd."

Encrypted Communication – Even and Odd Arrangement (Cont..)

- Now Quran, the Last Word and the Last Holy Book of Islam shows that a system is built in it **1400 years ago** before the invention of computers and computer data transmission that its chapters and corresponding total verses in that chapter were transmitted without error and that the Quran is of **Divine origin**.

57 of the results (Sura numbers + Verses Numbers) are odd and 57 of the results are even out of the total of 114 Suras in Quran.

- In this age of science and computers, when many want to be justified only by science and mathematics, it is a solid and mathematical proof that we have a **mathematical encoded message from our One and Only God - Allah i.e. Quran- The Last Word and Holy Book of Islam.**

Iron's Isotopes

- As the iron's atomic number is encoded in the sura that mentions iron, there is also a sign in that sura about the iron's isotopes.

1. The word **"Al Hadid"** which means a particular iron has a mathematical value of **57**. The article **"Al"** corresponds to **"the"** in English. When the word **'Hadid'** is used with the article **"Al"**, referring to a **specific iron**, the mathematical value turns out to be **57**.

3. The sura Iron (hadid) is the **58th sura** from the end of the Quran. That is another isotope of iron.
4. This sura has **29 numbered verses**. This number becomes **30** when the unnumbered 'Basmalah' is counted. This **number is equal to the neutron numbers of two isotopes of iron**, from the total of four. The frequency of the word God in this sura gives the neutron number of the other isotope.

Mathematical Definition of Quran

I define Quran mathematically as:

Quran is the One and Only Last – **19th Holy Scripture** and mathematically encoded literature of Allah, comprising of **114 suras** ($19 \times 6 = 114$) and **6346 verses** (19×334), whose all initials, letters, words, verses and suras are mathematically encoded and signed with **Number 19**, by One and Only Almighty Allah, Who revealed His **Last – 19th encrypted** message on His Last Prophet Muhammad in Arabic language to complete Islam.

66 in Religions

- The total number of books in the Protestant edition of the Bible (Old Testament and New Testament) combined.
- The total number of chapters in the Bible book of Isaiah.
- The number of verses in Chapter- 3 of the book of Lamentations in the Old Testament.
- In Abjad numerals, the Name of '**Allah**', which consists of four Arabic letters of 'Alif, Lam, Lam and Hey', the numeric value is **66**.
- The **Number – 66 is the 7th Hexagonal Number** and it coincides with the number of books in the Canon, while the index – 7 coincides with the number of Canonical Divisions. This all coheres with God's use of the Number – 6 in Creation, according to Bible and Quran – both are Divine Scriptures.

66 and Bible

- The numerical weight of the biblical word '**Wheel**' corresponds exactly to number of Books in God's Wheel – the Holy Bible. Furthermore, the Key to the entire Bible, found in Verse 22 of Isaiah 22, is itself a multiple of both 66 and 22.
- **Wheel = 66**

of every Human Hand

- If one looks at his or her 'right palm', thumb facing upward, the lines in the hand appear as '1' and '8', which are the **Arabic numerals of 1 and 8 or 18.**

Look at your hands and identify the outlined marks.

In Arabic, 8 is written as \wedge and 1 is written as $|$. Thus, on your left hand, the marks appear as $\wedge|$ which can be written as 81 in English. On the right hand, the marks appear as $| \wedge$, which can be written as 18. Here is the interesting part, if you were to add 81 and 18, it becomes 99, which is the number of Allah's beautiful names that appear in the Quran. Also, if you subtract 18 from 81, it becomes 63. At the age of 63, Prophet Muhammad (peace be upon him) passed away and the religion of Islam was completed! Amazing, isn't it? It is as if the Kalimah is written on your hands. There is no god but Allah and Muhammad is the messenger of Allah.

Creation of Earth in Six-6 Days According to Bible and Quran

“Lo! Your Lord is Allah Who created the heavens and the earth in **Six Days, then mounted He the throne.”**

Quran-(Chapter- 7, Verse- 54)
– Last Holy Book of Islam

It is written in Exodus 20.19f as:

“Six days shalt thou labor, and do all thy work....For in **six days the LORD made heaven and earth, the sea, and all that in them is, and rested the seventh day: wherefore the LORD blessed the Sabbath day, and hallowed it.”**

Bible – Exodus 21.19f

“The Sabbath was decreed only for those who had differed about it: and your Lord will judge them on the Day of Resurrection regarding their disputes.”

Quran (Chapter – 16, Verse 124)

Creation of Earth in Six-6 Days According to Bible and Quran (Cont..)

1. One is that Earth and Cosmos is created in **Six days – 6 days.**
 2. **Second, the 7th Day is the Sabbath day which occurs on Saturday. So the completion of Earth is on Friday, which is the 6th day according to Bible.**
 3. **Third, if we take 21st March as the 6th day occurring on Friday – The Last Day of Creation of our Earth and Cosmos, then going back – Six – 6 days would be March 16th occurring on Sunday – The First Day of the Creation of our Earth and Cosmos.**
- **And according to some beliefs and faiths, especially in Central Asia and other neighboring States like India, Iran, Pakistan, etc, people celebrate 'Naurooz' meaning 'New Day' as they believe that God created the Earth on March 21st. So they celebrate with joy and colors.**

**March 21 --- 3.21 Naurooz ----- Day of creation
of Earth and Heavens**

Creation of Earth in Six-6 Days According to Bible and Quran (Cont..)

- The numeric value of 3.21 is:

$3.21 = 3 + 2 + 1 = 6$ 6 matches with the 6th and the final day of the creation of the Earth and Cosmos

- So if March 21st is the completion day, then **going six (6) days back, March 16th should be the First day** of the creation of the Earth and the Heavens.
- **March 16 --- 3.16**..... First day of the creation of the Earth and Heavens
- The numeric value of 3.16 is:

$3.16 = 3 + 1 + 6 = 10 = 1 + 0 = 1$**1st Day**

3.16 is the same number as Ali Pi- 3.16.....

Creation of Earth and Ali Pi

The creation of Earth and Cosmos is verifying the Perfect value of

Ali Pi – 3.16.....

"Lo! Your Lord is Allah Who created the heavens and the earth in **6 Days**, then mounted He the throne."

Quran-(Chapter- 7, Verse- 54)

All Heavens and the earth are created in 6 days as per Holy Quran.

Astrological Proof of Pi – 3.16 through Star and Date

Aries (21st March – 20th April) First Star in Astrology

- **Aries is the first month in Astrology.** It starts from **March 21st**. There are two important questions about the month and the date.
 1. First question is that why the astrologers start Astrology signs and stars from Aries, which **starts in March**. Why they don't start from any other month?

Why from March – 3rd Month?

2. Second question is about **the starting date** of the Astrological sign. Why 21st March? Why not 20th March or 22nd March or 23rd March.

Why from 21st?

Astrological Proof of Pi – 3.16 through Star and Date (Cont)

1. **Muslims** believe that earth and heavens created in **six - 6** days.
2. **Christians and Jews** believe that world is created in **six - 6** days.
3. **Astrologers** believe that **March 21st is the first day** of the **first star - Aries** in Astrology.
4. People across Central Asia, India, Pakistan, Iran and other States in the world celebrate **'Naurooz'** on **March 21st as 'New Day'**.

Astrological Proof of Pi – 3.16 through Star and Date (Cont)

- Because we know that some astrological stars start from 20th of the month, some starts from 23rd. So both the month of March, which is 3rd in sequence from January and the date of 21st is very important in Astrology
- **March – 21st ----- 3.21.....First Astrological month of 'Aries' start' from March 21st or 3.21**
- **Now even Augustine and Alcuin wrote that God had created the world in 6 days because that was the perfect number.**
- So if 21st March is the first and the starting date on the earth according to astrology, then it would be the completion date of the creation of the world. So going back **six (6) days**, we found that **March 16th** should be **first day** of the creation of the world and Heavens and it is proving through all beliefs.

Ali Pi Day – March – 16 or 3.16

Pi Day --- 16th of March or 3.16

- **Ali Pi19/6.....**if expressed in date, it would be – **19th of June** or **6.19**
- **The total days from 16th of March to 19th June including both the dates would be 96 days.**
- From 16th of March to 19th of June Total days would be **96 days.**

16th March to 31st March..... 16 days

1st April to 30th April..... 30 days

1st May to 31st May..... 31 days

1st June to 19th June.....19 days

Total days from 16th March to 19th June.....96 days

- **96 Days** would be written and expressed as:

$$96 = 16 \times 6$$

$$96 = 4 \times 6 \times 4$$

$$96 = 9 + 6 = 15 = 1 + 5 = 6$$

$$96 - 19 = 77 = 7 + 7 = 14$$

$$96 - 6 = 90 = 9 + 0 = 9$$

Pi Day --- 16th of March or 3.16 (Cont..)

- If we calculate from the exact day of Completion of Creation of Universe which is on 21st of March. The 21st of March is written as **3.21** and the Perfect Value of Ali Pi is $19/6$ which when written in month and day format would be expressed as **6.19**
- **Date of Completion of Creation of Universe --- 21st of March or 3.21**
- Ali Pi $19/6$if expressed in date, it would be – **19th of June or 6.19**
- **The total days from 21st of March to 19th June including both the dates would be 91 days.**

Pi Day --- 16th of March or 3.16 (Cont..)
